

# AV & Other Requirements

- Lapel microphone is ideal
- Lectern, with hands-free mic setup
- Preference to connect Daniel's MacBook Pro, which he connects on-stage via:
  - an HDMI or USB-C port, PLUS
  - a separate audio jack output for sound (audio via HDMI does not work sufficiently)
- Daniel has HD footage with music / sound effects and typically the bigger & higher spec of the screen(s), makes for a more engaging experience
- Presentation optimised for 16x9 screens
- Approximately 30 minutes to do a thorough tech check before the start of the event
- Please darken room, so the audience can enjoy the images and videos
